Business Report

(April 1, 2021–March 31, 2022)

1. Overview of the Corporate Group

(1) Business Status for the Fiscal Year Under Review

1) Business Progress and Results

In the fiscal year under review, the Japanese economy remained unpredictable as a series of COVID-19 waves restricted economic activities. In developed countries, economic activities showed some signs of recovery to a normal level thanks to increasing vaccination coverage. The global economy, however, has been suffered from disrupted supply chains and skyrocketing prices of raw materials and natural resources due to limited production activities primarily in China and Southeast Asia, as well as the warfare in Ukraine.

Under the circumstances, we have increased the synergy between businesses within the Group and implemented measures to strengthen the business foundations to meet diversifying customer needs and to expand the businesses. In May 2021, the Company offered a take-over bid, and wholly owned PALTEK CORPORATION (hereinafter referred to as “PALTEK”) in order to expand the businesses of semiconductor and electronic components. In the System Equipment Business, in February 2022, we acquired full ownership in CARDSERVICE Inc., which has a top market share by expanding sales of foreign-made payment terminals in Japan, in order to further strengthen the business foundation.

Amid growing needs for contribution to a sustainable society, the Group which operates in diverse business fields strives to solve social issues such as increasing renewable energy power generation. We will unite the Group companies and optimize each of their businesses, actively deploy co-creation business and expand new businesses in line with the vision of the Group, “Global (in view and scale) / Social Contribution / Collaboration and Innovation.”

• Financial Highlights

During the fiscal year under review, while demand and supply of semiconductors were tightened, the Company captured positive demand of customers for consumer equipment and on-board equipment in the Semiconductor and Electronic Components Business and the Procurement Business, which resulted in overall sales growth. On the other hand, sales of the Electronic Equipment Business were affected by difficulties in procurement of some products and parts because of the shortage of semiconductors for various products. In terms of profit, the gross profit increased due to an increase in revenue, and both operating profit and ordinary profit increased through controlling selling, general and administrative expenses.

Profit attributable to owners of parent also increased due to extraordinary income of 1,936 million yen posted as gain on negative goodwill as we wholly owned PALTEK and its affiliate companies.

As a result of the above, in the fiscal year under review, we recorded net sales of 399,590 million yen (up 23.4% year on year), operating profit of 7,588 million yen (up 21.6% year on year), ordinary profit of 6,711 million yen (up 18.0% year on year) and profit attributable to owners of parent of 5,957 million yen (up 46.9% year on year).

The “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29, March 31, 2020) and others were applied from the beginning of the current fiscal year. For more details, please refer to “Notes to Consolidated Financial Statements, 2. Notes on Changes in Accounting Policies (Application of Accounting Standard for Revenue Recognition).”

- Semiconductor and Electronic Components Business

The Devices Business recorded an increase in revenue as higher demand for consumer equipment, on-board equipment and industrial equipment, as well as servers continued. The EMS Business recorded an increase in revenue due to increased orders for smartphones and tablets as well as a greater number of on-board components as those products got higher functionalities. The segment profit increased due to higher revenue in the Device Business.

As a result of the above, sales were 290,725 million yen (up 29.0% year on year), and segment profit was 7,883 million yen (up 17.3% year on year).

- Procurement Business

The Procurement Business recorded an increase in revenue due to increased sales to the Panasonic Group centering on the sale of industrial and personal computer components, and on-board equipment. In addition, the business with newly acquired customers other than the Panasonic Group developed strongly, which contributed to the increase as well. Segment profit increased due to revenue growth and special demand associated with semiconductor shortage as well as improvement in gross profit due to depreciation of yen.

As a result of the above, net sales was 84,446 million yen (up 17.2% year on year) and segment profit was 798 million yen.

- Electronic Equipment Business

The Electronic Equipment Business recorded an increase in revenue due to delivery of large-scale broadcasting and video production-related projects, and rising demand for conference systems. The System Equipment Business recorded a decrease in revenue mainly due to decreased demand for cashless payment terminals associated with lower demand of vending machines for offices despite the launch of a new product, the personal authentication equipment for my-number cards, and an impact on shipments due to disrupted supply chain. The segment loss was recorded due to an increase in investment costs for expanding sales of the Electronic Equipment Business and a decrease in profit in the System Equipment Business.

As a result of the above, net sales was 21,000 million yen (up 4.6% year on year) and segment profit was 426 million yen (down 47.9% year on year).

- Environmental Energy Business

The Energy Business recorded an increase in revenue thanks to growth in solar and windmill power generation in Japan and increase in solar power generated by increased solar farms in Taiwan. The Power Producer and Supplier Business recorded a decrease in revenue due to lower private-sector demand mainly for offices. The Vegetable Factory Business recorded a decrease in revenue due to declining demand for convenience stores and decrease in shipments in the Kazuno Factory which had a fire accident in August 2021. Segment profit, however, returned to the black due to an increase in profit in the Energy Business, and improvement of profit and loss in the Vegetable Factory Business.

As a result of the above, net sales was 9,437 million yen (up 0.7% year on year), and segment profit was 236 million yen.

2) Capital Investments

Total capital investment conducted across the Group during the fiscal year under review amounted to 11,487 million yen, with the majority constituting business assets in the energy business.

3) Procurement of Funds

In order to procure flexible, stable, and efficient funding for business development, the Group renewed our commitment line agreement for a 65.0 billion yen syndicated loan arranged by MUFG Bank, Ltd. We

are also implementing Group financing and are working to reduce and stabilize the cost of raising operating funds capital within the Group.

4) Remuneration, etc. of Directors

i. Policy for Determining Remuneration Amounts for Individual Directors or Calculation Method

Regarding the Company's policy for determining the amount of remuneration for Directors and how that remuneration is calculated, remuneration is determined following deliberation in the Group Nomination and Remuneration Committee based on the roles and responsibilities of each officer, their achievements to date, and the scale of the markets they manage. The remuneration of Directors who are responsible for business execution consists of a fixed and a variable remuneration component. Fixed remuneration is determined separately according to job position. Variable remuneration is based on the business results which a person achieved in a single fiscal year (performance-linked remuneration). The performance-linked remuneration for a single fiscal year is designed to fluctuate at a payment rate defined by the degree of achievement of business targets of the entire Group, the degree of achievement of business fields controlled by officers in charge, and the degree of achievement of specific individual targets. The amount to be paid is deliberated and decided at the Group Nomination and Remuneration Committee. On the other hand, Directors who are Audit and Supervisory Committee Members independent of business execution duties as well as Outside Directors only receive fixed remuneration given the fact that offering a variable remuneration component would not be appropriate. To ensure transparency and objectivity in determining the amount of remuneration for each Director, the Group Nomination and Remuneration Committee, which is delegated by the Board of Directors, deliberates and determines the remuneration for each Director responsible for business execution, excluding Directors who are Audit and Supervisory Committee Members. The Group Nomination and Remuneration Committee is chaired by Ms. Reiko Date, Director (Outside) who is an Audit and Supervisory Committee Member, and its members are Mr. Kiyoshi Togawa, Director (Outside) who is an Audit and Supervisory Committee Member, and Mr. Kunihiko Konno, Representative Director and CEO. The Board of Directors judges that the content of Director remuneration is being determined in line with its decision policy because the deliberations and decisions of the remuneration are entrusted to the Group Nomination and Remuneration Committee, over two thirds of which consists of Directors (Outside) who are Audit and Supervisory Committee Members independent of business execution duties. The amount of remuneration for Directors who are Audit and Supervisory Committee Members is determined by the Audit and Supervisory Committee.

ii. Matters Concerning Resolutions by the Ordinary General Meeting of Shareholders Relating to the Remuneration, etc. of Company Officers

Regarding remuneration amounts for Directors, the Company determined that the total amount of remuneration for Directors responsible for business execution should be capped at 500 million yen per annum at an Extraordinary General Meeting of Shareholders held on November 27, 2018 and determined that the total amount of remuneration for Directors who are Audit and Supervisory Committee Members should be capped at 100 million yen at the Ordinary General Meeting of Shareholders held on June 26, 2018. The Company has eight Directors who are responsible for business execution and seven Directors who are Audit and Supervisory Committee Members, all of whom are eligible for remuneration payments, etc. based on these payment quotas.

iii. Matters Pertaining to the Delegation of Authority for Determining the Content of Remuneration, etc. for Individual Directors

Regarding the determination of remuneration amounts for individual officers, in order to ensure the transparency and objectivity of remuneration decisions, the remuneration for individual directors responsible for business execution, excluding directors who serve as Audit and Supervisory Committee members, is deliberated and determined by the Group Nomination and Remuneration Committee under delegation of the Board of Directors. The Group Nomination and Remuneration Committee is chaired by Ms. Reiko Date, Director (Outside) who is an Audit and Supervisory Committee Member, and its members are Mr. Kiyoshi Togawa, Director (Outside) who is an Audit and Supervisory Committee Member, and Mr. Kunihiro Konno, Representative Director and CEO. The Board of Directors judges that the content of Director remuneration is being determined in line with its decision policy because the deliberations and decisions of the remuneration are entrusted to the Group Nomination and Remuneration Committee, over two thirds of which consists of Directors (Outside) who are Audit and Supervisory Committee Members independent of business execution duties.

The amount of remuneration for Directors who are Audit and Supervisory Committee Members is determined by the Audit and Supervisory Committee.

Pursuant to Article 444, Paragraph 4 of the Companies Act, we have audited the accompanying consolidated financial statements, which comprise the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in shareholders' equity, and the notes to the consolidated financial statements of Restar Holdings Corporation (the "Company") for the fiscal year from April 1, 2021 to March 31, 2022.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position and results of operations of the Restar Holdings Group, which consists of the Company and its consolidated subsidiaries, for the period covered by the consolidated financial statements in conformity with accounting principles generally accepted in Japan.

Basis for the Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibility under the auditing standards is stated in "Auditor's Responsibility for the Audit of the Consolidated Financial Statements." We are independent of the Company and its consolidated subsidiaries in accordance with the provisions related to professional ethics in Japan, and are fulfilling other ethical responsibilities as an auditor. We believe that we have obtained sufficient and appropriate audit evidence to provide a basis for our audit opinion.

Other Information

The other information comprises the information included in the business report and the supplementary schedules. Management is responsible for preparation and disclosure of the other information. The Audit and Supervisory Committee is responsible for overseeing the execution of duties by Directors in development and management of the reporting process of the other information.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and the Audit and Supervisory Committee for the Consolidated Financial Statements
Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the presentation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing whether it is appropriate

to prepare the consolidated financial statements in accordance with the premise of a going concern, and for disclosing matters relating to going concern when it is required to do so in accordance with accounting principles generally accepted in Japan.

The Audit and Supervisory Committee is responsible for monitoring the execution of Directors' duties related to designing and operating the financial reporting process.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our responsibility is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to express an opinion on the consolidated financial statements from an independent standpoint in an audit report, based on our audit. Misstatements can occur as a result of fraud or error, and are deemed material if they can be reasonably expected to, either individually or collectively, influence the decisions of users taken on the basis of the consolidated financial statements.

We make professional judgment in the audit process in accordance with auditing standards generally accepted in Japan, and perform the following while maintaining professional skepticism.

- Identify and assess the risks of material misstatement, whether due to fraud or error. Design and implement audit procedures to address the risks of material misstatement. The audit procedures shall be selected and applied as determined by the auditor. In addition, sufficient and appropriate audit evidence shall be obtained to provide a basis for the audit opinion.
- In making those risk assessments, the auditor considers internal control relevant to the entity's audit in order to design audit procedures that are appropriate in the circumstances, although the purpose of the audit of the consolidated financial statements is not to express an opinion on the effectiveness of the entity's internal control.
- Assess the appropriateness of accounting policies adopted by management and the method of their application, as well as the reasonableness of accounting estimates made by management and the adequacy of related notes.
- Determine whether it is appropriate for management to prepare the consolidated financial statements on the premise of a going concern and, based on the audit evidence obtained, determine whether there is a significant uncertainty in regard to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If there is a significant uncertainty concerning the premise of a going concern, the auditor is required to call attention to the notes to the consolidated financial statements in the audit report, or if the notes to the consolidated financial statements pertaining to the significant uncertainty are inappropriate, issue a modified opinion on the consolidated financial statements. While the conclusions of the auditor are based on the audit evidence obtained up to the date of the audit report, depending on future events or conditions, an entity may be unable to continue as a going concern.
- Besides assessing whether the presentation of and notes to the consolidated financial statements are in accordance with accounting principles generally accepted in Japan, assess the presentation, structure, and content of the consolidated financial statements including related notes, and whether the consolidated financial statements fairly present the transactions and accounting events on which they are based.
- Obtain sufficient and appropriate audit evidence regarding the financial information of the Company and its consolidated subsidiaries in order to express an opinion on the consolidated financial statements. The auditor is responsible for instructing, supervising, and implementing the audit of the consolidated financial statements, and is solely responsible for the audit opinion.

The auditor reports to the Audit and Supervisory Committee regarding the scope and timing of implementation of the planned audit, material audit findings including material weaknesses in internal control identified in the course of the audit, and other matters required under the auditing standards.

The auditor reports to the Audit and Supervisory Committee regarding the observance of provisions related to professional ethics in Japan as well as matters that are reasonably considered to have an impact on the auditor's independence and any safeguards that are in place to reduce or eliminate obstacles.

Interest

Our firm and engagement partners have no interests in the Company or its consolidated subsidiaries requiring disclosure under the provisions of the Certified Public Accountants Act of Japan.
