### Notice Concerning Revision of Consolidated Full-Year Earnings Forecast for the Fiscal Year Ending March 31, 2024

Restar Holdings Corporation (hereinafter, the “Company”) hereby announces that, at a meeting of the Board of Directors held today, it has decided to revise the consolidated full-year earnings forecast for the fiscal year ending March 31, 2024 announced on May 12, 2023 in light of recent business trends, as follows.

#### 1. Revision of Earnings Forecast

(1) Revision of Consolidated Earnings Forecast for the Fiscal Year Ending March 31, 2024 (April 1, 2023 to March 31, 2024)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
Forecast announced previously (A) (May 12, 2023)	Millions of yen 500,000	Millions of yen 10,000	Millions of yen 7,000	Millions of yen 7,000	Yen 232.80
Revised forecast (B)	500,000	14,000	8,000	7,000	232.80
Change (B - A)	-	4,000	1,000	-	
Rate of change (%)	-	40.0%	14.3%	-	
(Reference) Results for the previous fiscal year (Fiscal year ended March 31, 2023)	487,129	14,423	12,043	7,085	235.64

## (2) Reason for the Revision

For the consolidated full-year earnings forecast for the fiscal year ending March 31, 2024, there are positive and negative factors. Although strong sales continued for in-vehicle devices due to recovery in new car production and sales for consumer products seem to be bottoming out, the recovery in market conditions for industrial equipment and other sectors has been slower than initially expected. On the other hand, in addition to an improvement in profitability due to a weaker yen than expected, the procurement price of electricity in the power producer and supplier (PPS) business is expected to remain stable. Taking these factors into account, the Company will upwardly revise the consolidated full-year earnings forecast for the fiscal year ending March 31, 2024.
