Restar Corporation

# **FY2023 (Apr 2023 – Mar 2024) Consolidated Financial Highlights**

Net sales increased due to strong performance of the Procurement Business and the consolidation of the Semiconductor and Electronic Components Businesses, while operating income increased due to higher sales and the contribution of the Environmental Energy Business, both of which were record highs

- Net sales  
Reached a record high mainly due to the strong performance of the Procurement Business and the contribution of TSUZUKI EMBEDDED SOLUTIONS CO., LTD. (now Restar Embedded Solutions Corporation) as a consolidated subsidiary in the Semiconductor and Electronic Components Business (+5.2% YoY)
- Operating profit  
Reached a record high due to sales growth and the contribution of the Environmental Energy Business(+10.5% YoY)
- Ordinary profit  
Fell due to an increase in borrowings and higher interest expenses resulting from higher interest rates (-19.5% YoY)
- Net profit attributable to shareholders of the parent company  
Remained almost unchanged, due in part to extraordinary income from the sale of non-current assets and cross-shareholdings(-1.1% YoY)

(Million yen)

## Devices

Sales slightly increased, due to strong sales for in-vehicle devices and the contribution of TSUZUKI EMBEDDED SOLUTIONS CO., LTD. as a consolidated subsidiary, although sales of industrial equipment, PCs and communication equipment weakened

## EMS

Sales increased due to the expansion of the mainstay smartphone and in-vehicle displays to new customers

## Segment profit

Segment profit decreased due to decline in gross profit caused by foreign exchange rate trends, the absence of special demand in the same period of the previous year, as well as inventory write-downs and allowance for doubtful accounts related to customers in sales in the devices business

(Million yen)

## Procurement

Sales increased due to continued strong demand for in-vehicle products for major customers

## Segment profit

Segment profit increased due to higher sales

(Million yen)

## Electronic Equipment

Sales increased mainly due to growth in medical and company-use products

## System Equipment

Sales decreased due to the absence of special demand for Individual Number authentication related devices in the same period of the previous year, despite increased sales of overseas-made payment terminals

## Segment profit

increased slightly, mainly due to an improved product mix

(Million yen)

## Energy

Sales remained strong owing partly to new operation of solar power generation in Japan and overseas, but decreased slightly due to lower sales of facilities and equipment

		4Q FY22	4Q FY23	YoY	
Energy Sales (incl. sales to PPS)		5,428	5,459	31	0.6%
	Solar Power MW				
	Japan	151	151	0	—
	Overseas	33	37	4	11.8%
	Total	184	188	4	2.1%

## Power producer and supplier (PPS)

Sales increased owing mainly to the solid demand from the government sector

## Vegetable Factory

Sales decreased slightly owing to lower sales to convenience stores and the impact of the Noto Peninsula Earthquake on operations despite an expansion in sales mainly to major supermarkets

## Segment profit

Segment profit increased significantly largely due to stable electricity purchase prices in the PPS business and the contribution of owned power sources
